

# Introduction to Process Technology

Session	Recommended Topic Sequence
1	Course Overview
2	History of the Process Industry
3	Your Career as a Process Technician
4	Working on Teams
5	Basic Physics
6	Basic Chemistry
7	Test Review
8	<b>Test #1</b>
9	Safety, Health, and the Environment
10	Principles of Quality
11	Piping and Valves
12	Tanks, Drums, and Vessels
13	Pumps
14	Compressors
15	Test Review
16	<b>Test #2</b>
17	Steam Turbines
18	Electricity and Motors
19	Heat Exchangers (Part 1)
20	Heat Exchangers (Part 2) (Cooling Towers and Fin Fan)
21	Furnaces
22	Boilers
23	Test Review
24	<b>Test #3</b>
25	Distillation
26	Process Control Instrumentation
27	Process Utilities
28	Process Auxiliaries
29	Process Print Reading
30	Process Facility Tour
31	Test Review
32	<b>Test #4</b>
